

**HEX.COM**

## What is HEX?

HEX is a **Cryptocurrency**.

## What makes HEX better than other Cryptocurrencies?

HEX is designed to **go up in value faster** than any other Cryptocurrency. This is because of its genius mathematical staking mechanism.

## What is HEX staking?

HEX staking is a way to lock up your HEX tokens for a certain amount of time so you can earn **rewards**.

## What are the rewards?

You will be rewarded with new HEX tokens that are minted through **inflation**. This is calculated as an APY.

## How long do I need to stake?

You can stake your HEX tokens from 1 day to **5555** days (15 years). The longer you stake your HEX tokens the higher APY you will make.

## How much APY can I make?

You can make up to **38% APY** depending on the length of your stake.

## How do I know it's safe?

HEX has been out for over 2 years and has worked **flawlessly**. Everyday you can check the progress of your stake and watch your investment grow.

## How much is a HEX token worth?

You can find the current price of HEX on **HEX.COM**. HEX has been going up in value since its launch and has become one of the fastest appreciating assets on the planet.

## Why should I buy HEX?

Being a part of the HEX ecosystem can help you create **wealth** at a much faster pace than traditional methods. The future is crypto and the best crypto out there is HEX.

**In HEX, you become your own bank. The more you learn about it, the more you'll love it.**

Start your Crypto journey  
and earn passive income.
